COMMITMENT TO EQUITY

We strive to create a workplace that reflects the beautiful diversity of Oregon, embodying the spirit of unity and understanding that defines our great state.

Our multi-focused approach addresses Lottery as an employer, business and community partner.

PESTLE ANALYSIS

LIKELY AND IMPACTFUL EVENTS OUTSIDE OF LOTTERY'S CONTROL

POLITICAL SOCIAL LEGAL	• Direction to not expand gaming in Oregon provides strategy guardrails for Lottery management.¹ • Any non-Lottery gaming expansion will further dilute Oregon gaming market, resulting in less Lottery play.²	• Competition for discretionary consumer spending decreases gambling share of personal consumption expenditures.³ • Volatility in global trade policies increase supply chain and technology cost uncertainty. This impacts operational expenses, vendor pricing, and long-term planning. A recession limits disposable income for lottery games.³ • Macroeconomic pressures on operating costs for beneficiaries and Lottery¹² decrease margin available for improving Lottery operations and increase importance of transfers.	ECONOMIC
	• Demographic and social attitude shifts and evolving consumer preferences towards digital gambling platforms⁴ necessitate adaptive engagement strategies balancing innovation with responsible gaming. • Oregon's population (2023-24) grew 0.4%.⁵ • Gen X as a share of our player base in their prime earning years is smaller than previous generation.⁶	• Cyber threats exponentially increasing in targeting organizations⁷. Attacks immobilizing operations with a long path to recovery drive a need to invest in security infrastructure. • Innovation rate in gaming industry is incremental and lagging trends in SAAS and fourth wave technology. • Outdated gaming industry technologies force a bi-modal support structure in Lottery operations. • These events increase technology management costs.	TECHNOLOGICAL
	• Adherence to changes in statutes and administrative rule—such as defining casino or an increase in regulation of couriers—will require us to act quickly and may impact revenue.	• Threat of natural disasters or emergencies requires us to prioritize contingency planning and crisis management to defend transfers and continuity of operations, where appropriate. SWOT ANALYSIS

SW (INTERNAL) OT (EXTERNAL) TO LOTTERY

STRENGTHS	- Well established and recognized brand garnering customer trust and loyalty⁸. Diverse gaming portfolio catering to a wide audience.⁹ - Ongoing emphasis on strategic technology investments positions us to enhance efficiency. - Prioritizing security measures maintains player trust and confidence in operations integrity. - Multichannel retail and online access enhances accessibility¹⁰. Strong retailer network and established market bolsters state program funding. - Transfers fund public programs and initiatives, creating a positive social impact¹¹. We are highly committed to responsible gaming balanced with revenue expectations.⁹	- Regional collaborations for technology sharing, portfolio enhancement and market management. - Consumer demand for corporate social responsibility and digital services to enhance customer experience, increase efficiency and brand loyalty. - Realize administrative savings through navigating market constraints and increasing operating model efficiency. - Optimize existing product portfolio to improve margins while appealing to and maintaining a broad audience.	OPPORTUNITIES
	- Thin margins fund future investments¹². Need to optimize product margins and operating model. Overly dependent on Video Lottery revenue. Our share of available market relatively stagnant (drinking establishments, full-service restaurants, etc.) - Technological limitations and some dependency on outdated systems (gaming and internal). - Regulatory constraints limit product and service innovations. - Loss of institutional knowledge and business continuity due to 25% of workforce eligible for retirement in next 5 years. - Lack steady source of investment funds to address ongoing operational needs, skills needed to deliver, and a clear process and governance structure to support. This slows us down.	- Gaming industry highly consolidated¹³, and there are limited options for gaming platforms and equipment. Unfavorable pricing structures with gaming system providers and limited negotiation power due to limited population size of our market.¹⁴ - Brick-and-mortar model changing. Market stagnation¹⁵, rise in online orders over retail visits¹⁶, growth in unregulated gambling channels¹⁷, and increased competition for new entertainment options limits growth.

ALLOCATION OF RESOURCES

Agency efforts aligned to the strategic plan are self-funded by net profit and administrative savings from a previous fiscal year—that is set aside in an investment fund to ensure we meet future transfer demand and bond obligations—or within a FY through re-prioritization and cost savings achieved by mission excellence efforts.

These efforts seek to decrease operating expense baseline costs. Current and planned FTE, key strategic partners, contracts, capabilities and tools are leveraged to deliver this plan.

MEASURING PLAN PERFORMANCE

ACCOUNTABILITY + COMMUNICATIONS

COMMISSION INFORMATION, PUBLIC FACING REPORT + EOY ANNUAL REPORT

There are three ways the public can view our strategic plan and two ways they can receive quarterly updates. Oregon Lottery holds itself **accountable to achieving the SMART goals** approved by our commission every year. Updates will start at the EOQ1 FY26.

View Strategic Plan

An explanation of the plan will be recorded in two, work session and approval meetings occurring in May and June 2025. The meetings will be posted on YouTube on our commission site.

The plan will also be posted on the commission site.

Receive Quarterly Updates

At the commission site and oregonlottery.org/strategy, the public may access a PDF of progress for goals and objectives in the current fiscal year. Further, updates are provided quarterly at commission meetings and in our EOY Annual Report. The report will be posted within four weeks of the previous quarter's end.
